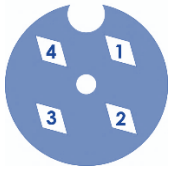
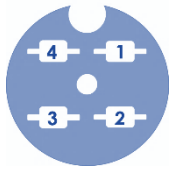
Important Notes

Please note and use PNCC grid numbering order as illustrated below:



unclipped grid box



clipped grid box

Your grid ID/name**	Puck # (if used)	Box # or ID	Box slot (1-4)	Grid Description	Concen-tration (mg/mL)	Grid Type (material, mesh, hole size)	Clipped (Y/N)	Priority Order

Total # of boxes:
Total # of grids:

* Please see the PNCC scheduling policies for more information on sample shipment and storage.
** This ID/name should uniquely identify the grid within this PNCC project. Examples may include this like: ProtAcomplex_g2, prep01-12-19_50mL_5sec, or just grid056, etc.
